Optimizing your lighting system

geff offers you modular, customized solutions for the optimization of your lighting system. Our focus is on the best possible combination of your economic and environmental needs.

We are manufacturer independent, which guarantees that you will always get the most modern and innovative lighting technologies.

User behaviour plays a central role in optimizing lighting. We will also provide you with the necessary analysis and training to help create positive user behaviours.

geff guides you through the optimization process. From the initial survey of your existing lighting, to the creation of an efficiency concept, through to the eventual implementation. Together, we will evaluate possible financing options and help you find the right fit for your needs.

**We offer you a complete solution - a worry-free package -
guaranteed and financed.**
